FLATBEDDISPATCHERS

Trailer Spec Sheet

Fill it in once from the data plate and the maker spec sheet. Send it with your carrier packet. Brokers and shippers use it to decide if the load fits your deck. Click a box to type.

1. Carrier and unit

Carrier legal name	
MC # / USDOT #	
Trailer unit #	
Make, model, year	
VIN	
Plate and state	
Trailer type	☐ Flatbed ☐ Step deck ☐ Double drop ☐ RGN ☐ Fixed-neck lowboy ☐ Curtainside ☐ Extendable

type, size and drop

Oversize banners, flags, amber lights

Edge protection and dunnage

5. Photos to attach

- ☐ Side profile, driver side
- ☐ Side profile, passenger side
- ☐ Deck from the rear (whole length)
- ☐ Neck detached and deck on the ground (RGN)
- ☐ Well with tape measure (length and height)
- ☐ VIN / capacity data plate
- ☐ Ramps and outriggers deployed
- ☐ Gear laid out: chains, binders, straps, tarps

Notes

Sources: Capacity notation as used on maker spec pages, e.g. xlspecializedtrailer.com/trailers/fixed-neck-double-drop and dorseytrailer.net LB35-33CS (checked November 2, 2026). Fill in from your own trailer's data plate and maker spec sheet.

Your trailer's data plate, GAWR and tire ratings set the legal load. Loads over legal size or weight need state permits.
